

## **Galen Enterprise LLC**

### **Galen Ho, President**

Galen is currently the President and sole proprietor of Galen Enterprise LLC, a management consultant company focused on areas such as Business Development, Project Performance, Strategic Thinking/Planning, Risk Assessment Methodologies, Leadership/Mentoring Development, Systems Engineering, and Knowledge management processes. His company is located in Burlington, MA.

Galen recently served as the CEO of CBI Polymers Inc., a manufacturer and distributor of CBRN/HAZMAT remediation products for customers in the U.S., Europe and Asia. Galen Enterprise currently serves as the exclusive distributor for CBI Polymers to the aerospace and defense sectors.

Galen Enterprise is also leading the marketing and licensing efforts for Blue Mars Inc. and its Avatar Reality platform, enabling shared experience, exploration and discovery through immersive, interactive virtual worlds.

He also currently serves as the President of SEE-IT Inc., a non-profit organization in Hawaii with the objective of creating a STEM-based exposition composed of an industrial cross-section of Hawaii's high tech businesses.

From 2005 to 2007, Galen was Senior Vice President for Performance Excellence, responsible for program management; engineering and technology; strategic planning; mergers and acquisitions; internal audit; information technology; and mission success for BAE Systems Inc.'s U.S.-based operations.

From 2000 through 2005, he was President of BAE Systems' Information and Electronic Systems Integration Sector, a \$5.0B business with over 9000 employees. IN 1999, he served as President of the former Lockheed Martin Aerospace Electronics Systems (AES) business segment, later acquired by BAE Systems in 2000.

Galen's other leadership positions include serving as Chief Executive Officer of Lockheed Martin Tactical Systems, United Kingdom and as President of the Helo Systems business for Lockheed Martin Federal Systems in Owego, New York.

He began his career with IBM, where he was appointed the IBM Federal Systems Vice President and General Manager, as well as President and Chief Executive Officer of IBM-ASIC responsible for the Merlin UK program, UK Systems Integration, and U.S. Helo Systems Programs.

Galen received a bachelor's degree in electrical engineering from Oregon State University and did graduate study work at Ohio State University. While serving as an officer in the U.S. Air Force from 1968 – 1973, he helped develop the Digital Fire Control System for the AC-130E Gunship Weapon system and is a Vietnam Veteran.

Galen was born in Hawaii and got his high school education at Maryknoll School. He currently serves on the Executive Committees & Boards of Maryknoll School & St. Louis School and is on the Executive committee for the University of Hawaii's College of Engineering Advisory Council. He also is currently an Overseer at the Boston Museum of Science.
